

Moths of Kakum National Park

Many 'beauties' of Kakum forest are usually invisible – but their hidden life-style does not mean that they are not important for maintaining this unique ecosystem. Rather, they all play relevant roles.

Moths of Kakum National Park

To date, there is no comprehensive inventory of the moths of Kakum – other insect groups are almost completely unrecorded.

Jointly with the Institute of Forestzoology of the University of Freiburg, Germany, a project has started to investigate the diversity of the moths of Kakum National Park.
